HYDRO-BLOK Seals for Pipes & Mixer Valves

HYDRO-BLOK Shower Seals allow you to fully waterproof your HYDRO-BLOK shower system at shower heads, mixer valves and tub spouts etc without using sealant. Constructed from a high-quality waterproofing membrane and over-molded, stretchable rubber gaskets. Simple installation with a thin layer of thinset prior to tiling (see packaging for complete instructions).

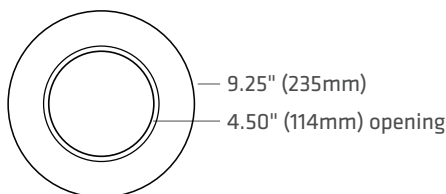

- 💧 Fully Waterproofs your HYDRO-BLOK Shower without the need for sealant
- 💧 Simple & Quick Installation
- 💧 Stretchable Rubber Gaskets seal tightly
- 💧 Install over existing pipes or valves without the need for plumbing changes
- 💧 High quality waterproof membrane provides a fully waterproof barrier in conjunction with your HYDRO-BLOK Shower System
