

HYDRO-BLOK SINGLE SLOPE SHOWER LINE DRAIN COUPLER

The Ebbe Line Drain Coupler allows for multiple Ebbe E6100 line drains to be joined together when required for continuous lengths over 73 3/8"

Notes

1. Installation to be completed in accordance with manufacturer specifications.
2. Maximum length of un-cut line drain is 73 3/8"
3. Be aware that joining multiple line drains together will require a separate waste pipe connection for each line drain.
4. ****Important: Coupler joint location must be centered between the 2 line drain waste pipe connections for proper drainage.**
